

Quality Policy

"SOCAR Midstream Operations" LLC is committed to delivering high-quality services in the oil field industry to meet the needs of our customers and stakeholders. Our quality approach is rooted in continuous improvement and sustainability.

Our Policy is to:

- We strive to align our business processes with the needs and expectations of our shareholders, regulators, employees, and customers, focusing on ongoing service improvement.
- We foster mutually beneficial relationships with our suppliers and service providers, ensuring that these partnerships contribute to our collective success and quality standards.

We are committed to:

- Adhering to relevant laws, regulations, and industry obligations.
- Integrating climate change action strategies and environmental sustainability into our core business processes.
- Enhancing the effectiveness of our Quality Management System (QMS) to drive higher service standards, minimize environmental impact, and promote long-term sustainability.

Our policy is achieved by:

- Establish clear objectives aimed at satisfying stakeholders and achieving environmental sustainability goals that help mitigate climate change.
- Ensure that our Quality Management System is aligned with business needs, industry standards, and best practices, driving measurable improvements.
- Perform periodic audits, assessments, and management reviews to ensure the relevance and effectiveness of our QMS, confirming its alignment with organizational goals and sustainability initiatives.
- Allocate sufficient resources to support the successful implementation of this policy and achieve our organizational objectives.
- Proactively identify and address potential risks, ensuring continuous increase the effectiveness of our QMS.
- Develop the skills and competencies of our personnel to improve high performance and service delivery.
- Regularly review and update this policy to ensure its ongoing relevance and alignment with evolving business needs and external requirements.

Farhan Aliyev
